

PFAS Compliance Declaration

01/15/2025

This declaration affirms that Clippard Instrument Laboratory, Inc. complies with applicable U.S. Environmental Protection Agency (EPA) regulations concerning Per- and Polyfluoroalkyl Substances (PFAS). PFAS are widely used, long lasting chemicals that break down slowly over time which are harmful to the environment.

To the best of our knowledge, based on Clippard's manufacturing processes, practices and information provided by our suppliers, our process and/or product do not contain PFAS.

Clippard Instrument Laboratory is committed to ongoing compliance with all applicable PFAS regulations. This includes the most recent update of PFAS chemicals added to the Toxics Release Inventory (TRI) on January 3, 2025.

Ethan Ragouzis, Quality Manager
