

January 26, 2024

Dear Clippard Customer,

This letter is to confirm that all products manufactured and sold by Clippard Instrument Lab, Inc. are fully compliant with respect to Registration, Evaluation, Authorization, and Restriction of Chemicals (REACH).

To the best of our knowledge, based on our own manufacturing processes, practices, and information provided by our raw material suppliers, all raw material suppliers use REACH compliant, REACH registered, or otherwise do not contain any chemicals listed under REACH's Candidate List of Substances of Very High Concern at a concentration greater than the reporting threshold of 0.1% w/w.

This information is based on raw material analysis and statements from our raw material suppliers. REACH restricted substances are not used in the manufacturing of the raw materials used to construct our products. Neither Clippard Instrument Lab, Inc. nor our suppliers routinely test for these substances. To that end, we do not provide substantiating test data.

Please let us know if you have any questions regarding this information.

Regards

Clippard Instrument Laboratory, Inc. Quality Team
