## Clippard NPV-7 Long Stroke Pinch Valves

Cincinnati, Ohio -- Clippard's high flow pinch valve provides the same functionality as the standard series but with the added benefits of a longer stroke. This makes it ideal for applications that require greater flow or those that utilize viscous or particulate-laden media. As with all Clippard pinch valves, each valve comes pre-installed with 12" (30 cm) of your choice of standard medical/laboratory grade or sanitary food grade silicone tubing.

- Solenoid-Operated
- Unobstructed flow path
- Tubing is easily replaceable
- High flow, long stroke

For more information on the new NPV-7 Series or any of Clippard's other 7,000 standard precision flow control products visit [clippard.com](http://clippard.com) or call 877-245-6247.
