

Clippard

Clippard E2S 10 mm Media Isolation Valves

Cincinnati, Ohio – The E2S series valve combines the versatility of Clippard’s compact 10 mm valve line with the advantages of media isolation. With a durable, glass-filled nylon body and an EPDM diaphragm that separates the actuation mechanism from the flow path, the E2S series is an excellent choice for dispensing a wide range of aggressive gases and liquids in applications that require compact, electronically-controlled valves which have minimal backpressure. Applications include printing equipment, medical diagnostic devices, dental equipment, fermentation, water treatment, dispensing, and more.

- Compact, 10 mm glass-filled nylon body
- EPDM diaphragm membrane
- Large inventory, ready to ship

For more information about these valves or any of Clippard’s 7,000 other precision fluid control products, call 513-521-4261 or visit www.clippard.com.
