

Clippard

Clippard Announces Release of Panel-Mounted Pinch Valves

Cincinnati, Ohio – For applications that require better access or enhanced cleanliness, Clippard NPV series pinch valves are also available with a convenient panel mount option. Panel mounted pinch valves provide all the same benefits as Clippard’s standard NPV series along with seamless integration and easy accessibility. Compared to standard manifold mounted pinch valves, panel mounting offers simplified installation, a cleaner appearance, and reduced contamination risk. As with all Clippard pinch valves, the panel mounted NPV series features an unobstructed flow path with zero dead volume—only the inside of the tubing contacts the fluid.

- Unobstructed flow path
- Each valve comes with 12” (30 cm) of silicone tubing pre-installed
- Tubing is easily replaceable
- Low power consumption
- High cycle life
- Large variety of tubing sizes available

For more information on Clippard’s Isolation and Pinch Valves or other 6,000 standard flow control products visit clippard.com or call 877-245-6247.
